Request for extension to oppose motion to dismiss

Dear Judge Rearden:

I represent the Plaintiff in the above-referenced action. On June 9, 2025, Defendant filed a Motion to Dismiss the Second Amended Complaint. (ECF # 19). I began a trial the following week in Queens County that ended two days ago.

On the same date that I began my trial, on June 16, my assistant and Plaintiff's counsel agreed to extend our time to answer the motion, as per the attached stipulation. Unfortunately, I only realized today that neither the stipulation nor a letter motion requesting the extension was filed with the Court while I was on trial. I regret the oversight.

As per the attached stipulation, Plaintiff respectfully requests an extension of the briefing schedule which would change the dates as follows:

July 14, 2025:	Plaintiff will serve and file his opposition.
July 21, 2025:	Defendant's will serve and file her reply.

Thank you for your consideration of this application.

Respectfully submitted,

Peter E. Brill
